

Story and Craft

Story and craft is a new style of workshop for children aged 2 – 4 with an adult. Each workshop has a theme and there are several crafts for children to complete and then together we will share a story and some songs. There is also space for children to play if they need some time away from creating.

There are two workshops this term and both will be held in Oberrieden (as it is a private home the address will be given out only to those participating).

Each workshop costs 20CHF per child.
